REUNIÓN INDUSTRIAL

The history of REI and the history of the manufacture of decorative fittings, furniture components and DIY accessories in Spain have run parallel to each other since 1986. Those histories converged when REI, by its very nature, began to lead the sector, incorporating continuous improvement processes and implementing a quality management system for the optimisation of the production process (ISO 9001 certified by SGS). Leadership is reinforced by integrating sustainability as a value present in materials and production processes, from design, prototyping, mould making, casting and metal turning, to packaging. REI applies a dynamic and integral discipline of sustainability to the entire production process; a recognised policy of environmental preservation that has allowed it, among other things, to obtain the demanding PEFC certification (Programme for the Endorsement of Forest Certification).

La historia de la fabricación de herrajes decorativos, complementos de mobiliario y accesorios DIY, en España y la de REI, transcurren en paralelo desde 1986 hasta que, por su propia naturaleza, REI, comienza a liderar el sector, incorporando procesos de mejora continua e implementando un sistema de gestión de la calidad para la optimización del proceso productivo (Norma ISO 9001 certificada por SGS). El liderazgo se consolida al integrar la sostenibilidad como un valor presente en materiales y procesos de producción, desde el diseño, el prototipado, la confección de moldes, la fundición y el torno de metal, hasta el envasado. REI aplica una disciplina dinámica e integral de sostenibilidad a todo el proceso productivo; una reconocida política de preservación medioambiental que le ha permitido, entre otras cosas, obtener la exigente certificación PEFC (Programme for the Endorsement of Forest Certification).

L'histoire de la fabrication de ferrures décoratives, de compléments de meubles et d'accessoires DIY en Espagne, et celle de REI, s'écrivent en parallèle depuis 1986 jusqu'à ce que, de manière intrinsèque, REI commence à être à la tête du secteur, en incorporant des processus d'amélioration continue et en mettant en place un système de gestion de la qualité pour l'optimisation du processus de production (Norme ISO 9001 certifiée par SGS). Le leadership est consolidé en intégrant la durabilité en tant que valeur actuelle dans les matériaux et les processus de production, depuis la conception, le prototypage, la fabrication de moules, la fusion et le tournage de métaux, jusqu'à l'emballage. REI applique une discipline dynamique et intégrale de durabilité à l'ensemble du processus de production ; une politique reconnue de préservation de l'environnement qui lui a permis, entre autres, d'obtenir l'exigente certification PEFC (Programme for the Endorsement of Forest Certification).

WELCOME

BIENVENIDO / BIENVENUE

THANK YOU

FOR CHOOSING US

Each and every one of us is responsible for offering you, to the same extent, the range of products available in this catalogue.

We would like to thank you for counting on us as part of your company project.

GRACIAS

POR CONTAR CON NOSOTROS

Todos y cada uno de nosotros somos responsables de ofrecerte, en la misma medida, la gama de productos dispuesta en este catálogo. Queremos agradecerle que cuente con nosotros como parte de su proyecto de empresa.

MERCI

POUR VOTRE CONFIANCE

Chacun de nous s'engage sans exception à vous fournir toute la gamme des produits présents sur ce catalogue. Nous souhaitons vous remercier pour compter sur nous comme une partie de votre projet d'entreprise.

WITH YOU
SINCE

1986

CONTIGO DESDE / AVEC VOUS DEPUIS

You are entering Reunión Industrial, welcome to the Spanish decorative fitting and furniture accessories manufacturing company with the greatest international projection.

A team of over one hundred people is behind the company that is present in 45 countries. Together, we have managed to turn our company into an international benchmark for quality and sustainability, thanks to our total environmental commitment to build the future by using our business activity for the benefit of all.

What you are about to see, from here on in, is the result of more than thirty years of evolution. A range of products consistent with our design and sustainability criteria, which will allow us to strengthen the mutual relationship.

Thanks for joining us.

Estás entrando en Reunión Industrial, bienvenido a la empresa española de fabricación de herrajes decorativos y complementos de mobiliario con mayor proyección internacional.

Un equipo, de más de cien personas, estamos detrás de REI y REI tiene presencia en 45 países.

Juntos, hemos conseguido convertir nuestra empresa en referente internacional de calidad y sostenibilidad, gracias a nuestro absoluto compromiso medioambiental para construir el futuro aportando nuestra actividad empresarial en beneficio de todos.

Lo que vas a ver, de ahora en adelante, es el resultado de más de treinta años de evolución. Una gama de productos coherente con nuestros criterios de diseño y sostenibilidad, que permitirán afianzar la relación mutua.

Gracias por unirse a nosotros.

Vous entrez dans Reunión Industrial, bienvenue chez l'entreprise espagnole qui fabrique des ferrures décoratives et des accessoires pour meubles avec la plus grande projection internationale.

Une équipe de plus de cent personnes qui est à l'origine de REI et REI est présente dans 45 pays.

Ensemble, nous avons réussi à faire de notre entreprise une référence internationale en matière de qualité et de durabilité. Grâce à notre engagement environnemental absolu, nous construisons l'avenir en apportant notre activité commerciale au bénéfice de tous.

Ce que vous allez voir, désormais, est le résultat de plus de trente ans d'évolution. Une gamme de produits conformes à nos critères de conception et de durabilité, ce qui nous permettra de consolider la relation mutuelle.

Merci de vous joindre à nous.
